

# Southern Pinal County Regional Corridor Study Community Workshop

Please join the Southern Pinal County Regional Corridor Study Team for a community workshop to discuss the area's transportation system to enhance business opportunities, improve supply chain performance and reliability, and coordinate access to and from major employment centers, all of which will increase economic development potential and create lasting value for the area.

## Southern Pinal County Regional Corridor Study

Community Workshop  
Thursday, May 8, 2014  
1 to 4 p.m.  
Town of Marana Municipal Complex  
Conference Room  
11555 West Civic Center Drive  
Marana, AZ 85653

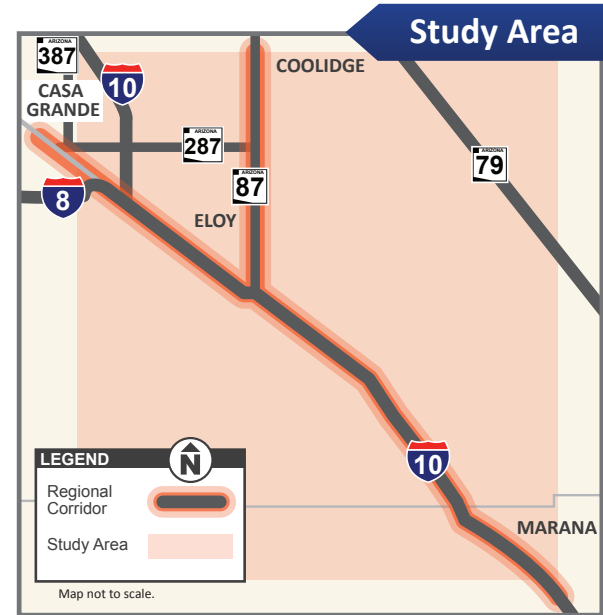

The region encompasses a geographical area of roughly 1,200 square miles and must adapt to evolving economic conditions, shifting markets for housing, commercial, and industrial development, and address critical issues to implement a regional vision.

How the region plans for post-recession growth today will directly impact economic opportunities and open space systems paramount to the future health and viability of the region. This study is most unique in that it will describe the market opportunities to develop scenarios in order to prioritize transportation infrastructure.

The workshop will focus on the following:

- ▶ What is developable?
- ▶ What should be preserved?
- ▶ What is the transportation network?

The Southern Pinal County Regional Corridor Study is led by the consulting team of Parsons Brinckerhoff and administered by the Arizona Department of Transportation and sponsored by Pinal County in coordination with the City of Eloy, Town of Marana, and City of Coolidge.

## We look forward to your participation!
